Autograph 4 Installation

1. Start the Autograph installer:
 - a. If you have the Autograph installer on CD then insert the CD into your drive. If the CD does not autoboot then click on the CD drive in Finder.
 - b. If you have downloaded the Autograph installer then double-click the disk image (.dmg file) to mount it if it does not do so automatically.
2. Double-click Autograph 4.pkg in the Start Screen.

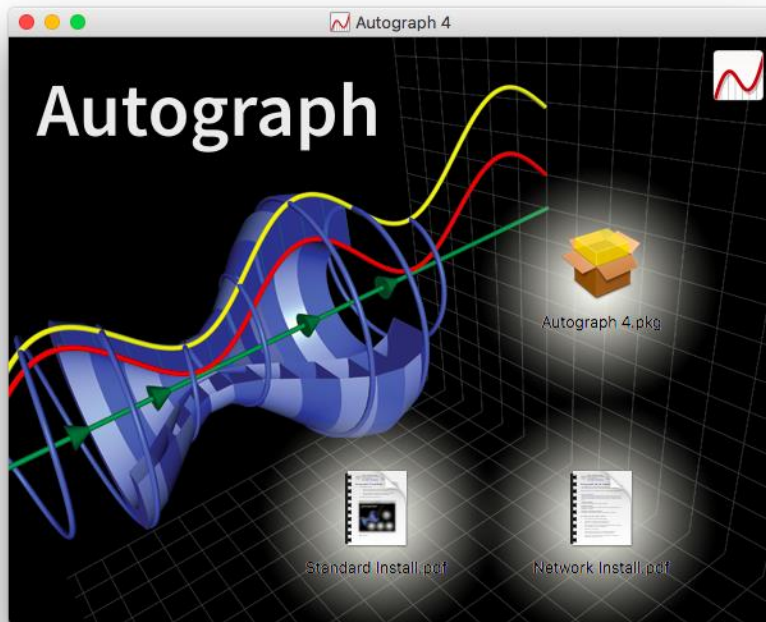

Figure 1. Start screen

3. Click Continue on the Welcome screen in Figure 2.

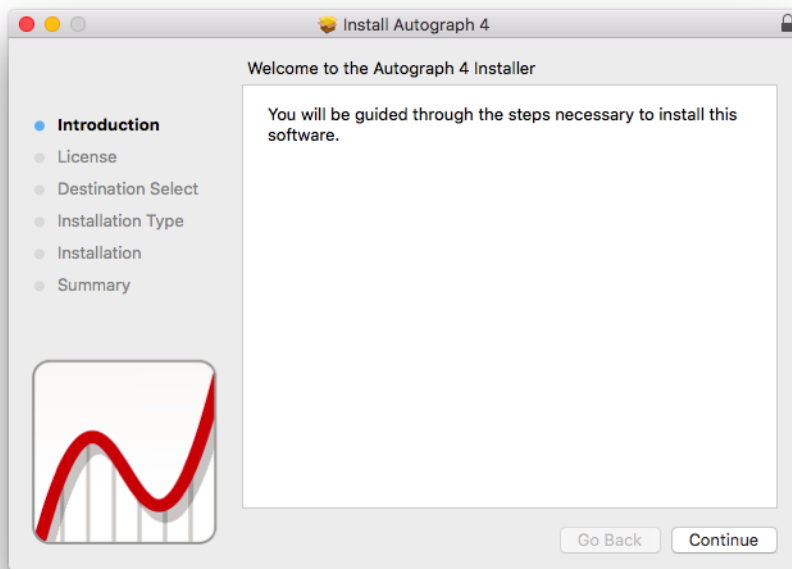

Figure 2. Welcome screen

4. Read and accept the terms in the licence agreement and click Continue.

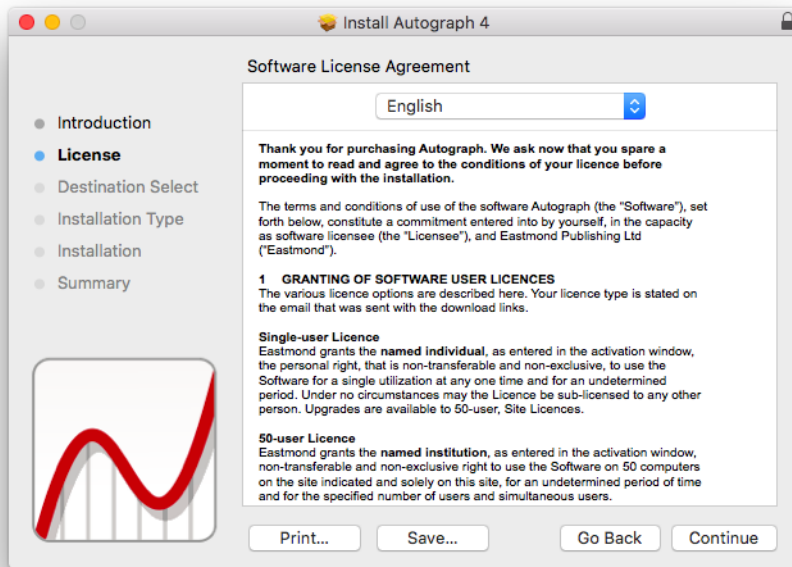

Figure 3. Licence Agreement

5. If you wish to change where Autograph is installed, click Change Install Location, select the correct drive and click Continue. Otherwise, skip to Step 6.

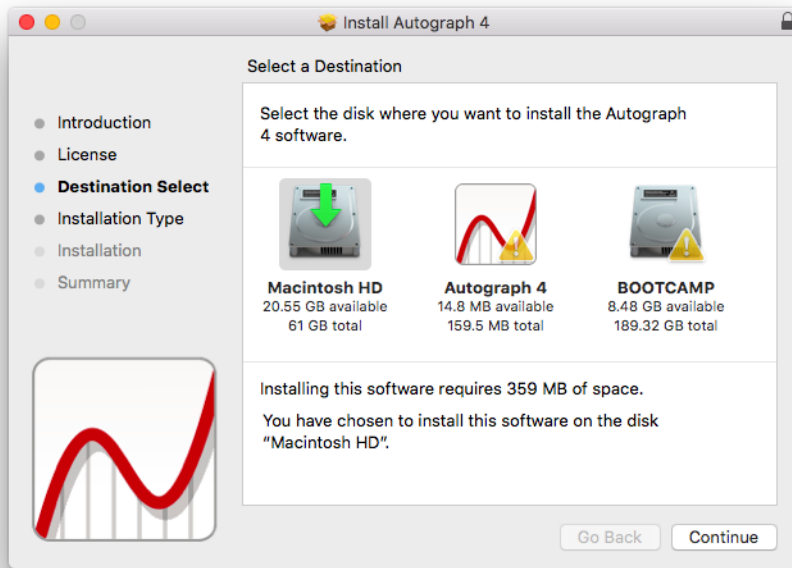

Figure 4. Install Location

6. You are now ready to install Autograph. Click Install. You will be asked for an Administrator password at this stage.

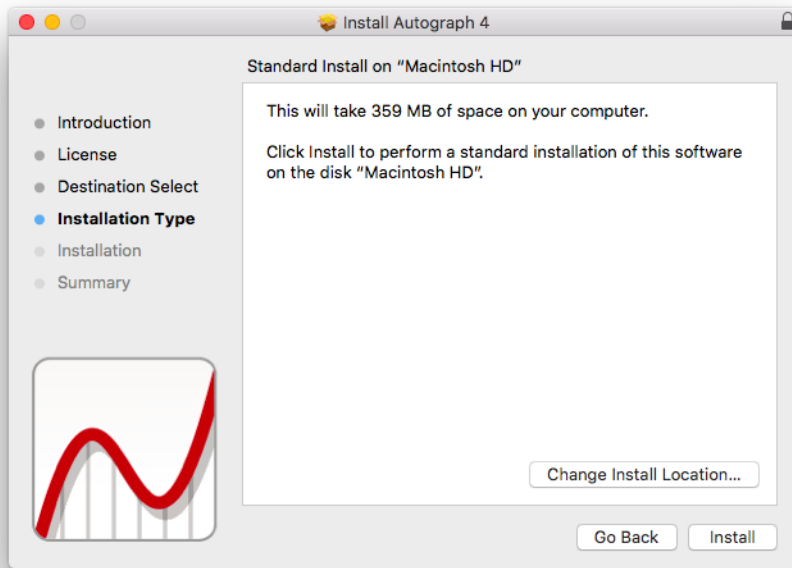

Figure 5. Install Autograph

7. The Installing Autograph dialog will display the progress of the installation.

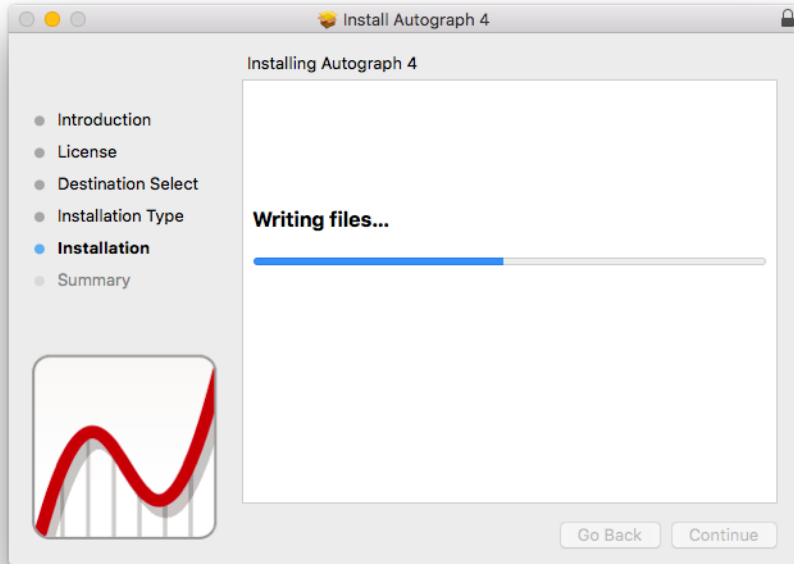

Figure 6. Installing Autograph

- When the installation completes the Installation was successful dialog will appear. Click Close.

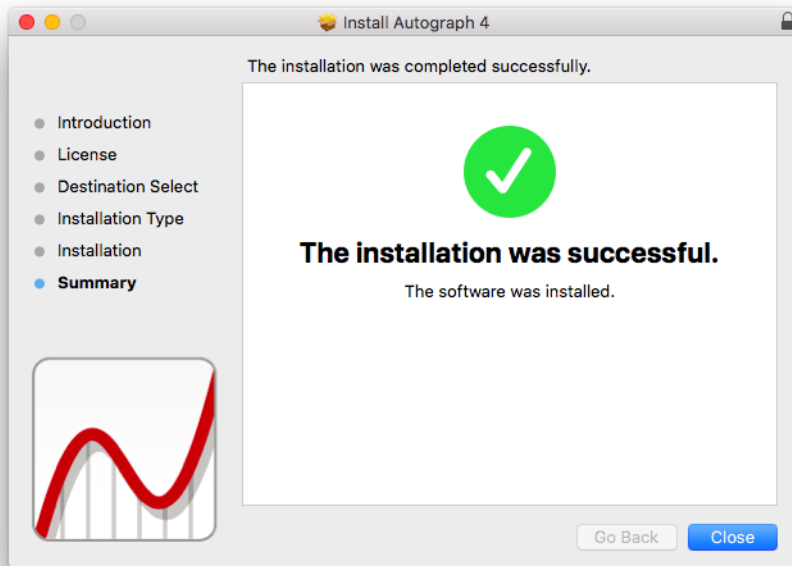

Figure 7. The installation was successful

9. Double-click on Autograph 4 in the Applications folder. The Activate or Trial Autograph dialog will open, as in Figure 8.

If you are trialing Autograph click Trial and Autograph will open. This will require an internet connection. You then have 30 days in which to evaluate Autograph. Please contact us at support@autograph-maths.com if you would like any help or resources. To upgrade to the full version click Purchase Autograph.

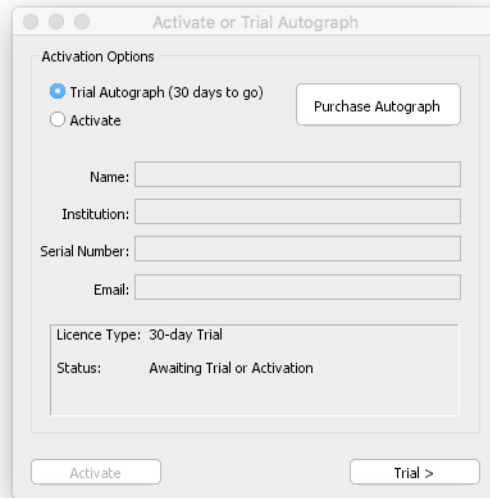

Figure 8. Activate or Trial Autograph

10. To activate Autograph, select the Activate radio button. Enter your Name, Institution (if applicable), Serial Number and Email. Click Activate. The computer must be connected to the internet for this to be successful.
